solution
for storing

Rigid,
tough
construction

Easy
transportation
with a
forklift
truck

INNOVATIVE SOLUTIONS
FOR TRANSPORT AND STORAGE

➔ **For secure storage and transport of tools and work supplies**

TRUCK TOOLBOX

This durable **Truck Toolbox** provides secure storage for tools and work supplies. The box size enables it to **fit neatly into your truck**. The rigid, **tough construction**, high quality polyethylene and advanced rotational moulding technology provide protection against **mechanical impact and changing weather conditions**. Made from 100 % recyclable materials the **Truck Toolbox is resistant to sunlight and UV damage**.

The **Truck Toolbox** boasts incredibly smooth operation. **Specially profiled edges seal against water and the lid keeps your equipment clean and dry**. Three suitable hinges keep the lid open and ensure **troublefree opening of the box standing by the wall**. Special slots underneath the box or side handles allow easy transportation with a forklift truck. Up to 3 boxes **can be easily and securely piled up** with convenient practical slots.

Equipped with **two steel locks and** an additional padlock the **Truck Toolbox** is the pinnacle of tool protection.

Kingspan Environmental operates in accordance with the ISO 9001:2008 FM no. 57348.

The **Truck Toolbox** is covered by a 5-year and equipment by a 2-year warranty. The warranty applies to the product used in accordance with the manufacturer's instructions.

About us

Kingspan Environmental is part of the international Kingspan Group. The wide product range of the Titan brand sets industrial standards for safe storage of such products as heating oil, diesel fuel, biofuel, chemical substances, rainwater, potable water, AdBlue® and foodstuffs as well as for the selective collection of municipal wastes.

The long term presence of Titan in the marketplace and constant research on market trends and requirements leads to the development of high quality, modern and innovative products and constant product range extension.

For more detailed information about the entire product range, please visit our website: www.environmental.kingspan.com or contact the office.
